Yes – Do you want to discuss right before the check in call tomorrow? I suggest that we advise our spokesperson to state (if asked) that we are not commenting on the budget process at this time.

Our only concern is that on live radio – they could ask budget questions. Can we talk before we commit? Thanks ng

**Subject:** Radio interview request: Montana Public Radio re: CFAC DDL 3/17

Eric Whitney, Montana Public Radio is requesting a radio interview to get a quick summary of what the draft Community Involvement Plan (CIP) for the Columbia Falls Aluminum Company Superfund site (Columbia Falls, MT) is, what kind of feedback the agency is asking for on it, and then an update on when we can expect the sampling results mentioned in the CIP email and how those results will inform the ongoing NPL/Superfund process.

These are topics with established talking points and messaging so we propose to accept the request.

DDL 3/17
